THE DREAD SCOURGE.

Startling Increase in the Cases of Yellow Fever in the Spanish Provinces.

Alarming Spread is Discovering the Efficacy of Dr. Ferran's Inoculation System.

Spain Decided as to Whether It Is Desirable to Secure Other Cures Unseen.

[Special Cable to The Tribune.]

MADRID, July 5.—[By Atlantic Cable.]—The disease is still raging in Valencia and Alicante. The latter city is now in the worst state. Every day the deaths are numerous. Many of the officials have left the city. The disease is also increasing in Murcia. Yesterday there were for the first time deaths in Madrid. Dr. Ferran's inoculation has been successful. During the last few days of March and April there were many cases, but as night fell the disease was checked. Now it is said that with the coolest months of the year the disease will increase. Many of the physicians have left the city. All those persons who are unable to leave the city have left to avoid the plague. Those who are unable to leave their homes are very busy burying the dead. The people are in a very unsettled state of mind. Every paper is full of the disease. Cholera, typhoid and sporadic, has been declared to exist. Many people have been arrested.

The spread of the present epidemic has been so gradual, unless through some of their own fault, that the all important and alarming cry, "Cry for government aid!" after having raised a few months ago, has not been heard. Even the fact that private meetings attended by the physicians, the correspondent learned were for the purpose of calling the attention of Dr. Ferran to the inoculation question, following the example of the medical committee sent here by the government to scientifically investigate Dr. Ferran's inoculation system, have not been made public. Dr. Ferran's medical opponents are conspicuous by their silence. No reports for the week ending June 30 have been published. Dr. Ferran's inoculation system is apparently gaining ground. Many families have left the city, and many others are preparing to do so. Those who have been inoculated by Dr. Ferran have left the city. Many of the physicians have left the city. Many of the physicians have left the city. Many of the physicians have left the city.

The spread of the disease is alarming. Many of the physicians have left the city. Many of the physicians have left the city. Many of the physicians have left the city.

The disease has increased in Murcia, but shows no increase elsewhere. The Government proposes public works to relieve the distressed districts.

Queen Dowager of Spain has taken refuge in the mountains.

The number of cases of cholera reported yesterday in Madrid is 1,470, and the number of deaths from the disease in the same city was 600.

THE CHOLERA.

The following are the cholera returns for Friday and Saturday:

The majority of the victims resident in Madrid are refugees from districts where the greatest misery prevails owing to the lack of sanitation.

PRECAUTIONS BY FRANCE.

PARIS, July 5.—The officials of the Department of Police on the Franco-Spanish frontier have been ordered, on account of the prevalence of cholera in Spain, to place persons arriving from that country under observation, and to detain them, if such a measure is deemed necessary.

NEW YORK, July 5.—[Special.]—Considerable excitement exists here in Democratic circles, especially among the Democratic politicians of Boston, over a report that the Democratic Congressmen from Massachusetts are to be summoned to Washington for the purpose of consulting with the Administration as to the best method of securing the passage of the Texas Pacific Railroad bill. The report is to the effect that the Administration is anxious to secure the passage of the bill, and that the Democratic Congressmen from Massachusetts are to be summoned to Washington for the purpose of consulting with the Administration as to the best method of securing the passage of the bill.

[illegible]

The most popular of the plans spoken favorably of is one for the purchase of all of the States of Mexico lying on the northern boundary—Sonora, Chihuahua, Coahuila, Nuevo Leon, Tamaulipas—and annexing them to the United States. The area embraced in these States is about 500,000 square miles, or 320,000,000 acres. Texas is particularly interested in the project, as the land in these States, if sold at $1.25 per acre, would bring $400,000,000, more than enough to pay off the entire State debt. The Texas Pacific Railroad would be built through the territory, and the Texas Pacific Railroad would be built through the territory.

ADVANCED TRUTH.

Mr. Beecher's First Discourse to the Nation on the Subject of Socialism.

The New Doctrine Scripturally Received, but Fiercely Gathered with Contemporary Views.

Invitation to an All to the Church in Facing Humanity on a Higher Moral Plane.

New York, July 5.—[Special.]—Mr. Beecher preached the first sermon of his season outdoor last night to a great crowd of people. Just as he had concluded his prayer a battalion of the Seventeenth Regiment, of which he is Chaplain, came marching down Cranberry street to Plymouth Church, and halted in front of the church. They had been arranged in this manner by the Colonel in order that the members of the regiment might hear the sermon. Mr. Beecher announced the morning hymn as the "Battle Hymn of the Republic," and the regiment joined in the singing. Then Mr. Beecher announced that he would preach on the subject of Socialism, and took for his text the following passage from the Epistle of James: "Come now, ye rich men, weep and howl for your miseries that shall come upon you. Your riches are corrupted, and your garments are moth-eaten. Your gold and silver is cankered; and the rust of them shall be a witness against you, and shall eat your flesh as it were fire. Ye have heaped treasure together for the last days. Behold, the hire of the laborers who have reaped down your fields, which is of you kept back by fraud, crieth; and the cries of them which have reaped are entered into the ears of the Lord of Sabaoth. Ye have lived in pleasure on the earth, and been wanton; ye have nourished your hearts, as in a day of slaughter. Ye have condemned and killed the just; and he doth not resist you."

Mr. Beecher said:

Such is the nature of the times and such the influences which surround mankind that at great crisis long begins and goes forward in the unconscious and subconscious action of men, bringing and accomplishing results which are not foreseen by the actors. Any one who has observed the course of events in the world for the last fifty years must be aware that there is a great movement of thought, which is largely connected with Socialism at large. The consequences are not yet quite in the determinate as to opinions. There are many Socialisms, but one organizing, and that is, and fearly is likely to be, the most powerful of them all. Socialism is a word of very large import, and which is somewhat elastic in many who use it unconsciously. But that one great thought, which has been developed by the modern study of political economy, which is the central thought of the Socialistic movement, and which is the basis of the Socialistic organization, is that the laboring man is entitled to the fruits of his labor. Now, that is a proposition which, in the abstract, is not disputed by any man. Every man who works for another has a right to his wages. Every man who works for himself has a right to the fruits of his labor. But the question arises, What is the fair proportion between the capital and the labor? Who is entitled to the profits of business? Is the capitalist entitled to the profits of business, or is the laborer entitled to the profits of business? Is the capitalist entitled to the profits of business, or is the laborer entitled to the profits of business? Is the capitalist entitled to the profits of business, or is the laborer entitled to the profits of business?

Now, the Socialistic movement is a movement which has been developed by the modern study of political economy, which is the basis of the Socialistic organization, that the laboring man is entitled to the fruits of his labor. But the question arises, What is the fair proportion between the capital and the labor? Who is

ROMAN-NOSE.

The Renegade Sioux Chief Now in Prison at Fort Leavenworth, Kan.

For Inciting the Cheyennes to War, Tradition Has Complaints Against the Welsh.

Cattlemen Who Deny that They Are to Blame for the Indian Troubles.

Leavenworth, Kan., July 5.—[Special.]—Notwithstanding the precautions taken at Fort Leavenworth to keep the existence of Roman-Nose from unscrupulous and curiously out the growth a brief interview can be obtained with the latter. Roman-Nose is a remarkable Sioux, who has cast his lot with the Cheyennes, and accused all the complaints of depredations committed by the Indians. Roman-Nose is a man of about 40 years old, is a very tall and well-proportioned man, and during the occupation of the country was several months of white people. He recently attempted to murder a white woman at Fort Reno, and became an object of suspicion to the officers at Fort Leavenworth. He had a misfortune following among the Cheyennes, and not even rank on the scale of the redoubtable chiefs have longest proving men from the Cheyennes and Arapahoes.

THE CHIEF'S COMPLAINTS.

When accosted by your correspondent today, Roman-Nose ran the catalogue of his rights and found no one word and that passed ignorant and said: "Ever since I can remember I have been a prisoner in my own land and it appears to have been long to be one to live. We speaks broken English, but manages to make his complaints understood. They are briefly against the encroachments, which he asserts have figured in south of the last reading land and forbid the Indians to range over portions of country. He claims that the permanent white settlers by the game concessions to the Cheyennes and Arapahoes are not fairly divided, and that the white hunters prey on the Indians and ignorant to locate their reservations and kill their game and hunters have come and gone. They will find him, who would probably take command and control the chiefs under his wealth the government would not permit this. He declares that he was promised by the commissioners that the Cheyennes should be allowed to hunt on their reservation as long as the buffalo and game should last. He says that the Cheyennes have been driven from their reservation and that

Gladness in Washington Learning After the Post-Offices in His District.

Congressmen Eager to a Vigorous Kick Because They Are Ignored.

A Washington's Idea of Remember—The Grand Swindle for Spoils.

WASHINGTON, D. C., July 3.—[Special Dispatch to THE TRIBUNE.] Judge Tree is expected here this week to confer on Mississippi matters, but he will not call on the new Cabinet, as he will first communicate in writing to President Grant. The Secretary will instruct Marshal Sharkey to make no arrests on the two charges made, as he has been informed that the "cash system" is to be done away with, and that the Government will not prosecute any more cases of the kind. It is said that Judge Tree intends to ask the President to remove Marshal Sharkey, and that he will also request the removal of the Attorney. Some of the Democratic members of the Legislature will also call on the President and ask the removal of the Attorney, and it is said that Governor Alcorn will not oppose the request. Marshal Sharkey is a Democrat, and was appointed by Johnson. Judge Tree is a Republican, and was appointed by Lincoln. Both are said to be personally friendly to the President, and both are said to be willing to do anything to promote the harmony of the party. Judge Tree is also expected to confer with the President in relation to the Virginia election, and to the appointment of Judges in that State, should the Legislature fail to elect. Governor Walker has been here for a week or more, and has had several interviews with the President and Cabinet officers, and it is understood that he has left for Richmond, and will return to Washington in a few days. It is said that Governor Walker has been urged to accept the Judgeship of the Fifth Circuit, but has declined. It is also said that Governor Walker has been urged to accept the Judgeship of the Fourth Circuit, but has declined.
